I have used many different bug/fly sprays in my job as caretaker of the horses, barns, and stables at the Biltmore House in Asheville, NC. Though most worked, I was concerned about the chemical affect on the horses and the people who ride in the carriages. However, I was introduced to WHUP-A-BUG Equine Spray and WHUP-A-BUG Barn and Stable concentrate and I am proud to say that it works better than the chemical sprays and when I sprayed the barn there was not a fly/bug around and it left a pleasing smell that was not offensive. I have taken care of the barn/stable and horses at the Biltmore Estate for ten (10) years and as such I am free to choose the product that I feel is the best. I have to say that WHUP-A-BUG is the best product I have ever used. I look forward to more products from this company.

Thank you for making such a wonderful product.

Mr. Jim Price
